

2018 Health & Justice Forum

Whole-Families Whole Community Approaches to Improving Health and Preventing Justice System Involvement

Thursday, January 18th 9:30-10:45am
Venetian Room

Session Learning Objectives:

- Outline community-based strategies for improving health across multiple generations
- Describe the impact of intergenerational poverty and other social determinants of health on health outcomes and justice system involvement
- List the unique barriers and opportunities of rural communities

Guided Questions for Speaker Remarks:

- Give a brief background of your county or organization:
 - o For Counties:
 - Location
 - Size
 - Rural/Urban
 - Demographics
 - Unique issues as it relates to wellness
- The phrase “Whole Families, Whole Communities” implies collective responsibility to ensuring wellness. What is your role/responsibility in ensuring the health of your community?
- How are you/your organization addressing intergenerational poverty (*Garrett/ Knox counties*)?
- What are some unique challenges and opportunities of rural counties in mobilizing the community around health and wellness efforts? (*Garrett/Knox Counties*)
- How can improvements in poverty and other social determinants of health prevent justice system involvement? (*Health Instead of Punishment*)
